FSC (Forest Stewardship Council) certification provides a credible link between responsible production and consumption of forest products, enabling consumers and businesses to make purchasing decisions that benefit people and the environment as well as providing ongoing business value.

CE marking on a product is a manufacturer's declaration that the product complies with the essential requirements of the relevant European health, safety and environmental protection legislation, in practice by many of the so-called Product Directives.

The real wood label acts as a basic cornerstone in the process of differentiating real wood floors from other flooring solutions. It guarantees that all of the products carrying this label are 100% made out of real wood.

ISO 9001 certification specifies requirements for a quality management system where an organization needs to demonstrate its ability to consistently provide a product that meets customer and applicable statutory and regulatory requirements.
