SAUNA WALLBOARDS

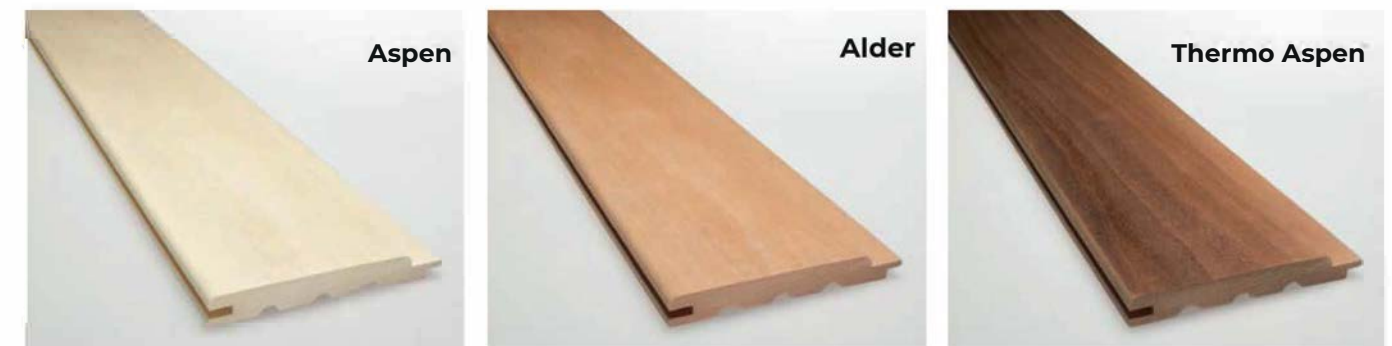

Our panels allow you to create an individual style and atmosphere in all your interior spaces, exactly as you wish. The wood options are alder, aspen, thermo aspen, thermo alder, spruce, and cedar. Our standard range includes panel profiles in sizes 15x70, 15x90, 15x120 and 15x140, as well as panels, STP in size 15x90, and finger panels.

STP

The STP panel is a classic sauna panel profile. We produce STP panels from the following types of wood: alder, aspen, thermo aspen, thermo alder, spruce, and cedar. The panels are 15mm thick and 90mm wide, which gives them an effective width of 81mm. STP panels in size 15x90 are available as a stock product, which enables fast delivery. The standard lengths are 1.8m, 2.1m, 2.4m, 2.7m and 3m, and you can also contact us to discuss other lengths

STP 15x90 | Thickness: 15 mm | Width: 90 mm | Effective width: 81 mm | Use per square meter: 12,3 m | Package: 6 pcs

STP 15x120 | Thickness: 75 mm | Width: 120 mm | Effective width: 110 mm | Use per square meter: 9,1 m | Package: 6 pcs

Wallboards

Do you prefer a toned-down and harmonious atmosphere, a warm and cozy feel, or an edgy and original vibe? The decision is yours. We are capable of meeting all your needs. Our panels provide you with the freedom to establish a unique style and ambience in all your interior spaces precisely as you desire.

15x70, 15x90, 15x120 a 15x140

Our company offers a wide range of sauna panel options made from high-quality wood, including alder, aspen, thermo aspen, thermo alder, spruce, and cedar. Our sauna panels can be securely attached to walls through either blind nailing or face nailing. We keep a stock of these panels for quick delivery, with standard lengths of 1.8m, 2.1m, 2.4m, 2.7m, and 3m. If you require a customised length, please do not hesitate to contact us, and we will be happy to discuss your needs.

15x70 | Thickness: 15 mm | Width: 70 mm | Effective width: 57 mm | Use per square meter: 17,5 m | Package: 6 pcs

15x90 | Thickness: 15 mm | Width: 90 mm | Effective width: 81 mm | Use per square meter: 12,3 m | Package: 6 pcs

15x120 | Thickness: 15 mm | Width: 120 mm | Effective width: 110 mm | Use per square meter 9,1 m | Package: 6 pcs

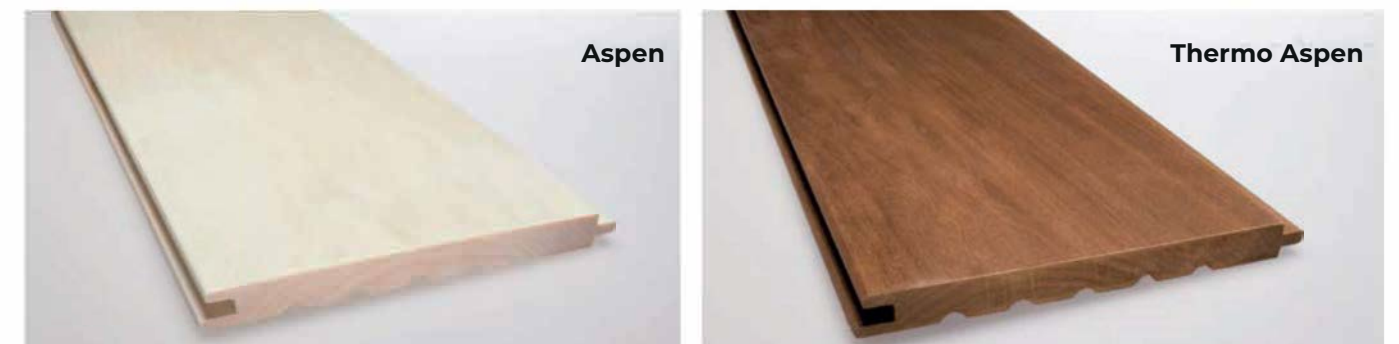

15x140 | Thickness: 15 mm | Width: 140 mm | Effective width: 127 mm | Use per square meter: 7,1 m | Package: 6 pcs

17x190

Our company offers panels made from two types of wood: aspen and thermo aspen. These panels are 17mm thick and 190mm wide, providing an effective width of 77mm. Installing them is easy, as they can be either blind-nailed or face-nailed to the wall. If you're interested in our special 17x90 product, please contact us to discuss availability. We offer standard lengths of 1.8m, 2.1m, 2.4m, 2.7m, and 3m, but we're also happy to discuss other lengths upon request.

17x190 | Thickness: 17 mm, Width: 190 mm | Effective width: 177 mm | Use per square meter: 5,6 m | Package size: 4 pcs

Grooved wallboards

If you are looking to create stunning visual effects in your sauna or any other interior cladding site, the panel is an excellent choice. The addition of lighting can further enhance the impressive effect. This product is gaining popularity due to its remarkable features. It is crafted from high-quality wood, including alder, aspen, and thermo aspen, and is available with either one or three grooves. The standard lengths are 1.8m, 2.1m, 2.4m, 2.7m, and 3m, but we are open to discussing other lengths upon request.

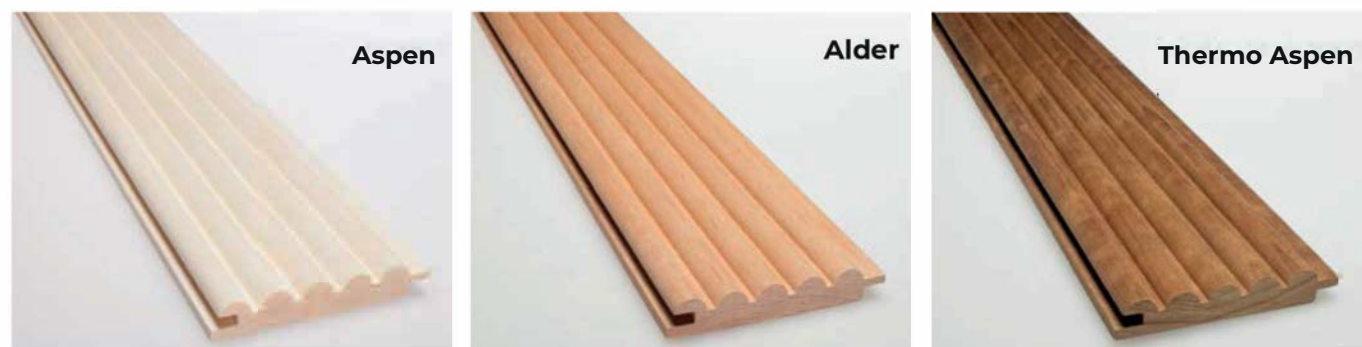

1-groove | Thickness: 15 mm | Width: 90 mm | Effective width: 77 mm | Use per square meter: 13 m | Package: 6 pcs

3-groove | Thickness: 15 mm | Width: 90 mm | Effective width: 77 mm | Use per square meter: 13 m | Package: 6 pcs

Finger joint wallboard

Our company also produces finger joint wallboards made from high-quality alder, aspen and thermo aspen wood. These panels boast a profile comprising 5 "fingers" and are 15mm thick and 90mm wide, making for an effective width of 79mm. We are proud to offer our finger joint wallboards in size 15x90 as a stock product, which allows for speedy delivery. Our standard lengths include 1.8m, 2.1m, 2.4m, 2.7m and 3m, but we are always happy to discuss other lengths to suit your needs best.

Finger panel 15x90 | Thickness: 15 mm | Width: 90 mm | Effective width: 79 mm | Use per square meter: 12,7 m | Package: 6 pcs

Coloured sauna profiles

Our range of sauna profiles also includes coloured options. To ensure a high-quality result, we offer colour treatment specifically for aspen wood. Our expert team can also colour your bench boards and mouldings by hand. For this, we use Tikkurila Supi Sauna Wax, which comes in white, grey and black. If you prefer, we can also offer translucent colours from Tikkurila's colour card. Additionally, we offer paraffin oil treatment for sauna panels and benches, and special colours are available upon request.

Coloured panels | Thickness: 15 mm | Width: 70 / 90 /120 /140 /190 mm

Coloured bench boards | Thickness: 28 mm | Width: 90 /120 /140 mm

Sauna benches

The key to a perfect sauna experience is having benches that meet your personal needs. Our standard range includes benches in the following sizes: 28x28, 28x40, 28x90, 28x120, and 28x140.

Bench SHP

Looking for something unique that will make a statement? Consider a bench! Not only does it have a beautiful appearance, but its curved design also serves multiple practical purposes. The curve makes for a comfortable sitting experience and allows water to drain away easily. The front edge of the standard model even features a groove for lighting. Plus, these benches can be installed in an L-shape or at a 45-degree angle. You can choose from alder, aspen, or thermo aspen wood. The bench surface can be treated with paraffin oil, and if you opt for aspen, it can be treated with Tikkurila Supi Sauna Wax for a unique look.

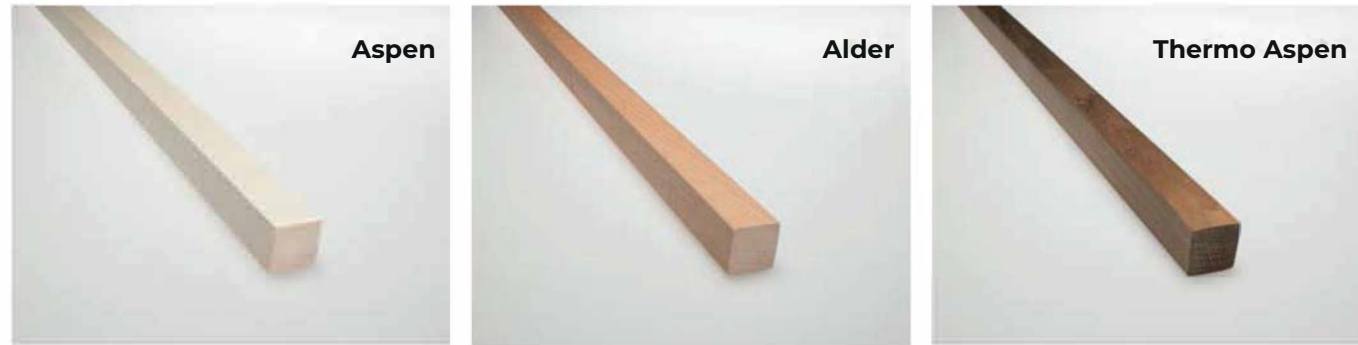

Sauna benches
 Not all sauna benches are the same. We can provide you with stylish, durable benches that meet all your specific requirements. You can select them directly from our broad range of products or have them designed exclusively for you.

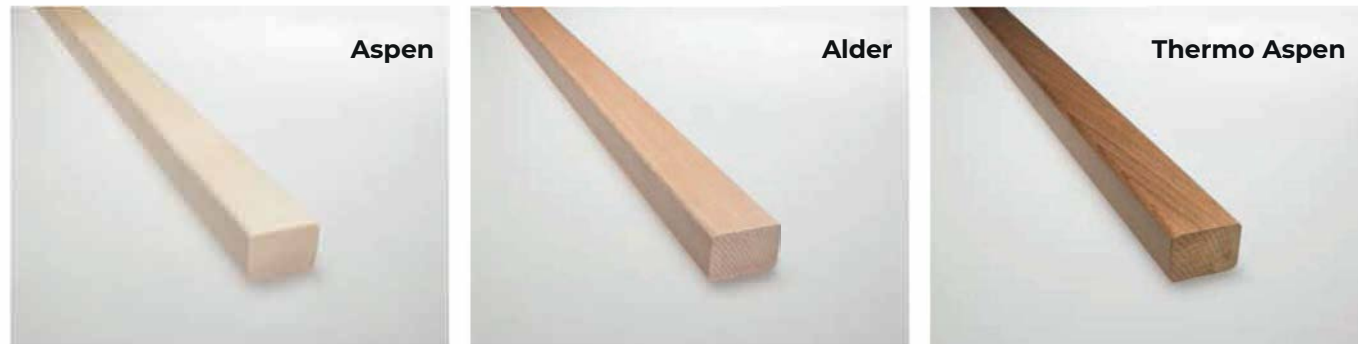

Bench I Thickness: 28 mm | Width: 90 mm - 120 mm

Bench 28x28, 28x40, 28x90, 28x120 a 28x140

Regarding sauna benches, not all products are created the same. Our selection of benches offers both style and durability and can be customised to meet your unique requirements. Our bench boards are crafted from high-quality alder, aspen, thermo aspen, thermo alder, spruce and cedar and are available as a stock item with short delivery times. Standard lengths include 1.8m, 2.1m, 2.4m, 2.7m, and 3m, and we are also happy to discuss additional length options with you. Contact us today to find the perfect sauna bench for your needs.

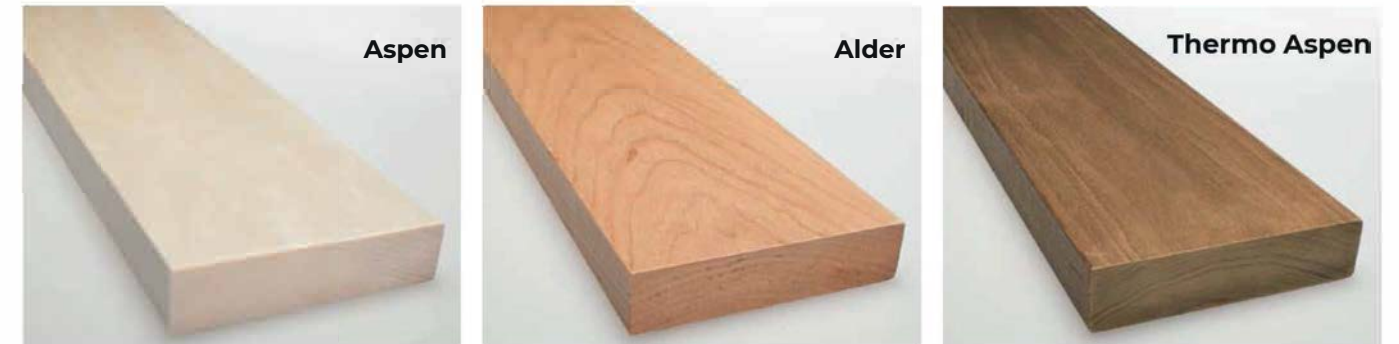

Bench SHP 28x28 | Thickness: 28 mm | Width: 28 mm | Package: 9 pcs | Bench boards with R2 rounded edges

Bench SHP 28x40 | Thickness: 28 mm | Width: 40 mm | Package: 8 pcs | Bench boards with R4 rounded edges

Bench SHP 28x90 | Thickness: 28 mm | Width: 90 mm | Package: 4 pcs | Bench boards with R4 rounded edges

Bench 28x120 | Thickness: 28 mm | Width: 120 mm | Package: 3 pcs | Bench boards with R2 rounded edges

Bench 28x140 | Thickness: 28 mm | Width: 140 mm | Package: 2 pcs | Bench boards with R2 rounded edges

Bench 40x150-300 | Thickness: 40 mm, Width: 150-300 mm | Glue: WR05

Bench 40x150-300

If you require a bench with exceptional durability, we have just the product for you. Our bench is constructed with glued laminated timber, ensuring that even the widest boards maintain their shape without bending or warping. Our benches are available in 40mm thickness and range from 150mm to 300mm in width. Our production process utilises alder, aspen, and thermo aspen woods. The edges of our bench boards are rounded with an R2 edge. Our benches range in length from 2.1m to 3m.

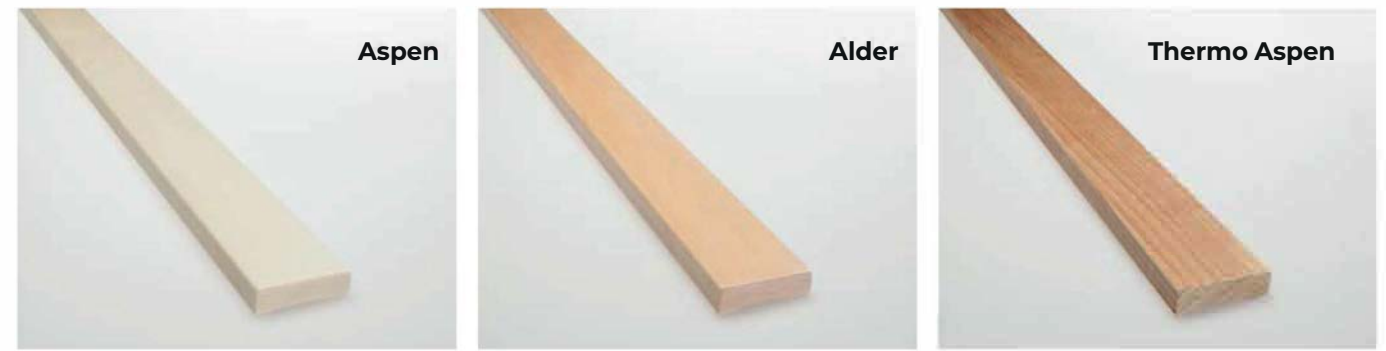

SAUNA MOULDINGS

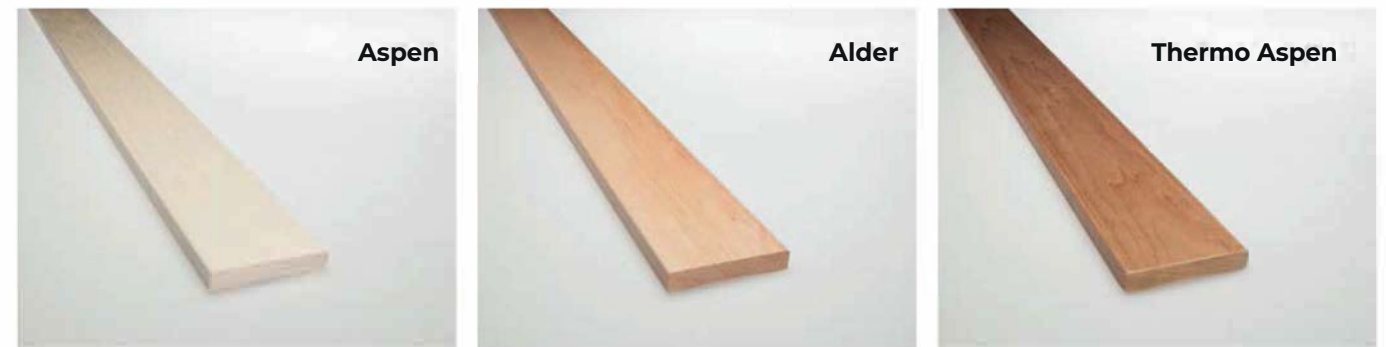

If you're looking to add those final details to your sauna spaces, our standard range of mouldings has you covered. With options including edge moulding, cover moulding, shadow moulding, cove moulding and corner moulding, you're sure to find the perfect fit for your needs. We use a variety of materials, including alder, aspen, thermo aspen and thermo alder to ensure that you have a diverse selection to choose from.

CEDAR

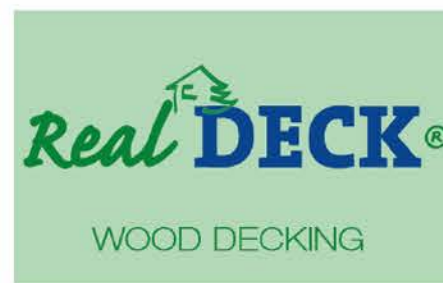

Would you like to indulge in a little luxury?

Consider using cedar for your sauna benches and wallboards. Cedar is a lightweight and sturdy wood that boasts a stunning range of colours, ranging from light to dark red and even brown. It's also exceptionally comfortable to sit on due to its ability to withstand high temperatures. Additionally, cedar is highly resistant to mould and maintains its shape over time. Standard dimensions available include 2.45 m, 3.05 m, and 3.65 m.
